Introduction

The following is what you need to know before using this product.

Before Use

Disclaimers

- Mitsubishi Motors will in no way be held responsible for losses resulting from fire, earthquake, tsunami, flood, or other natural disasters; from actions of third parties; from other accidents; or from inappropriate or abnormal usage conditions utilized by the customer, be said conditions deliberate or unintentional.
- There will be no indemnification for alteration or loss of any information stored upon this product by the customer or a third party resulting from improper use of this product, the influence of static electricity or electric noise, or at the time of malfunction or repair or similar circumstances. We recommend that you create backups of important information as a precautionary measure.
- Some personal information (telephone numbers etc.) entered into this product may remain in memory even if this product is removed. The customer is responsible for proper handling and management (including deleting) of personal information to protect privacy when handing this product over to anyone else or disposing of it. Mitsubishi Motors will in no way be held responsible.

- Mitsubishi Motors will in no way be held responsible for any collateral losses (loss of business profits, alteration or loss of recorded data) resulting from the usage or inability to use this product.
- For the purpose of product improvement, specifications and external appearance may be subject to change without advance notice. Accordingly, while the contents of the User Manual may differ, please be aware that returns, refunds, exchange, or conversion are not possible.
- This User Manual explains details for multiple models together. Depending on the model, there may be functions that may be described but not available, or requirements for separately purchased-products. Thank you for your understanding.
- Images and illustrations used in the User Manual are either those used in development, or used for explanations.
 Please be aware that these may differ from the actual images and illustrations used in the product.
- Please be aware that Mitsubishi Motors, including after-sales service departments, will in no way be held responsible for any losses or detriment resulting from alteration or loss of information stored in this product.

Important Points on Usage

Common

- During operation, ensure that the vehicle is not stationary in a garage or other confined area with bad ventilation while the engine is running. Doing so may result in carbon monoxide poisoning.
- For safety, the driver is not to operate this product while the vehicle is moving. The driver should also minimize as much as possible the time spent viewing the screen. Being distracted by the screen can result in an accident.
- Do not turn the volume up to the extent that you cannot hear sounds from outside the vehicle while driving. Driving without being able to hear sounds from outside the vehicle can result in an accident
- Do not disassemble or modify the product.
 This may lead to malfunction, smoking, or fire.
- When operating, ensure that the vehicle is stopped in a safe area in which stopping is permitted.
- Continued usage of this product without the engine running may deplete the vehicle battery, meaning that the engine may not be able to start.

Ensure this product is used while the engine is running.

- The following phenomena are characteristic of LCD screens. They do not indicate a malfunction
- Small black dots or bright dots (red, blue, green) on the screen.
- Screen movement is slow during cold weather.
- The screen is sometimes dark during hot weather.
- The color tones and brightness vary with the viewing angle.
- It is a characteristic of LCD screens that the picture quality varies with the viewing angle.
 When using this product for the first time, adjust the picture quality.
- If you paste an commercially-available LCD protective film or the like on the screen, it may interfere with touch panel operation.
- If you operate the touch panel with a sharp object (pen tip, finger nail, etc.), the screen may be scratched and this unit may be damaged, leading to faulty operation.
- Operating the touch panel with gloves on may cause faulty operation.
- When cleaning the screen, wipe it with a soft cloth. Do not use benzene, paint thinners, anti-static agents, or other chemical wipes.
 They could scratch the screen.

iPod/iPhone Playback Function (Option)

- This product supports audio and video playback from iPod/iPhone devices, however differing versions mean that playback cannot be guaranteed.
- Please be aware that depending on the iPod/iPhone model or version, operation may differ.

FCC NOTE

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Restrictions on Operations while the Vehicle Is Driving

Some operations are restricted while the vehicle is driving. The driver should refrain from operating this product while the vehicle is moving. First stop the vehicle in a safe location, then operate this product.

How to Clean

- If the product becomes dirty, wipe with a soft cloth.
- If very dirty, use a soft cloth dipped in neutral detergent diluted in water, and then wrung out. Do not use benzene, thinners, or other chemical wipes. This may harm the surface.

Trademarks

- Product names and other proper names are the trademarks or registered trademarks of their respective owners.
- Furthermore, even if there is no specific denotation of trademarks or registered trademarks, these are to be observed in their entirety.

Important Points on Safety for the Customer

This product features a number of pictorial indications as well as points concerning handling so that you can use the product correctly and in a safe manner, as well as prevent injury or damage to yourself, other users, or property.

MARNING This indicates details regarding handling of the product that if ignored, could be expected to result in death or serious injury.

A CAUTION This indicates details regarding handling of the product that if ignored, could be expected to result in personal injury or property loss.

↑ WARNING

 The driver should not pay close attention to the images on the screen while driving.

This may prevent the driver looking where they are going, and cause an accident.

 The driver should not perform complicated operations while driving.

Performing complicated operations while driving may prevent the driver looking where they are going, and cause an accident

Therefore stop the vehicle in a safe location before performing such operations.

 Do not use during malfunctions, such as when the screen does not light up or no sound is audible.

This may lead to accident, fire, or electric shock.

- Ensure water or other foreign objects do not enter the product. This may lead to smoking, fire, electric shock, or malfunction.
- Do not insert foreign objects into the disc slot.

This may lead to fire, electric shock, or malfunction.

↑ WARNING

 In the event of abnormalities occurring when foreign objects or water enter the product. resulting in smoke or a strange smell, immediately stop using the product, and consult an authorized Mitsubishi Motors dealer or a repair facility of your choice.

Continuing to use the product may result in accident, fire, or electric shock.

 Do not disassemble or modify the product.

This may lead to malfunction, fire, or electric shock

 During thunderstorms, do not touch the antenna or the front panel.

This may lead to electrical shock from lightning.

CAUTION

 Do not block ventilation holes or heat sinks on the product.

Blocking ventilation holes or heat sinks may prevent heat from escaping from within the product, leading to fire or malfunction.

 Do not turn the volume up to the extent that you cannot hear sounds from outside the vehicle while driving.

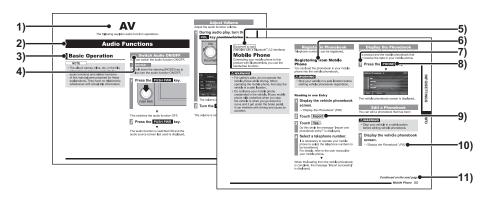

Driving without being able to hear sounds from outside the vehicle may result in an accident.

 Do not insert your hand or fingers into the disc slot.

This may result in injury.

How to Read This Manual

The notation used in this manual and what it means are as follows.

1) Volume Header

Classified by main functions.

2) Chapter Header

Classifies more finely the main functions in the volume header. A chapter header appears at the head of each chapter. You can also check the index on the right edge.

3) Major Header

Classifies the main operations and functions in a chapter.

4) Intermediate Header

Classifies the operations and functions under the major header.

5) Equipment by type

Indicates equipment that differs according to the vehicle model and grade.

6) Minor Header

Classifies more finely the operations and functions classified under the intermediate header

7) Operation procedure

These are numbers that show the operation procedure. Perform the procedure in the order of these numbers.

ooo key or [ooo] key

Shows an operation key on the panel.

9) oo or [000]

Shows a touch switch displayed on the screen.

10)(P000)

Shows the page to refer to. It contains relevant explanations etc.

11) Continued on the next page

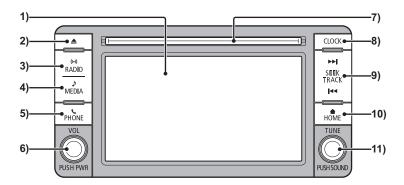

Used when the explanation of operations is continued.

Basic Operation

This Product

Main Unit Panel

This gives the names of each section of the main unit panel and explains their functions.

1) Display

Almost all operations can be performed by touching the touch switches displayed on this display.

→ "How to Perform Touch Operations" (P12)

2) <u>A</u> key

Used to eject a disc (P16).

3) RADIO key (P26)

When Audio is ON, each time the key is pressed, the radio source is switched and the radio screen is displayed.

When Audio is OFF, the radio screen last played is displayed.

4) MEDIA key (P42),(P52),(P63)

When Audio is ON, each time the key is pressed, the media source is switched and the media playback screen is displayed. When Audio is OFF, the media last played is resumed.

When there are no media available to play, Audio will be OFF.

5) **PHONE key** (*P67*)

The telephone menu is displayed. When the telephone is not registered, the pairing screen is displayed.

When the telephone is registered but not connected, the telephone selection screen is displayed.

When the telephone is connected, the phonebook screen is displayed.

6) VOL/PUSH PWR key

Allows you to adjust the volume for the audio function and telephone function. It also allows you to switch the audio function ON/OFF.

→ "Adjust Volume" (P15)

7) Disc slot

When a disc is inserted that can be played by this product, starts playback.

→"Inserting the Disc" (P16)

8) CLOCK key

Displays the time adjustment screen.

9) I≺SEEK TRACK key/ SEEK TRACK ►► key

Allows you to seek a radio station, or select a CD track. Also, holding down either of these keys allows you to fastforward/fast-rewind a CD.

10) HOME key

Displays the HOME screen. Used to select an audio source. → "Switch the Sources" (P14)

11) TUNE key

Allows to select an audio file folder or a radio station by turning.

PUSH SOUND key (P74)

Pressing the key displays the sound quality setting screen.

Used to adjust the sound quality.

Start

Start the system.

Switch the vehicle's ignition key to "ACC" or "ON".

The display switches to the last screen used in its previous session.

ADVICE

· Immediately after the ignition key is switched to "ACC" or "ON", some functions cannot be used immediately because data is being read. Please wait until the reading is completed.

How to Perform Touch OperationsThis system uses a touch panel that is

operated by touching the display directly.

When Touching

This manual indicates the operation of touching the screen to "Enter" with "Touch

Also, the menu of operations executed by touch is indicated as "Touch Switch".

ACAUTION

- The surface of the display scratches easily. Do not push on it too hard or rub it with a stiff cloth
- If the screen is dirty, wipe it gently with an eyeglass wipe or other soft cloth.

Searching Items from a List

You can move the display one page by touching vor .

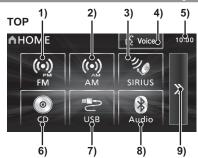

When the item you are searching for is displayed, touch it directly.

HOME

By pressing the [HOME] key to display the home screen, then selecting a source from that screen, you can use various functions.

Display Contents

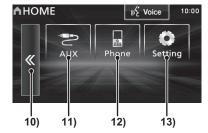

- FM (P26) Allows you to use the FM radio function.
- **AM** (P26) Allows you to use the AM radio function.
- **3)** SIRIUS *1 (P33) Allows you to use the satellite radio function.
- **Voice** *2(P18) Allows you to use the voice control function.

5) Clock

Displays the current time using 24-hour time or 12-hour time

2nd TOP

CD

Plays media inserted into this product. Audio CD (P42) Audio files (MP3/WMA/AAC) (P45)

7) USB/iPod *3

When an iPod is connected to this product, iPod is displayed and when you touch this, the iPod screen is displayed. (P53)

When a USB device is connected to this product, **USB** is displayed and when you touch this, the USB screen is displayed. (P57)

When nothing is connected to this product. USB/iPod is displayed.

Audio *4(P63)

When a Bluetooth-capable audio device is connected to this product, the Bluetooth audio function can be used.

>>

Allows you to switch to the next page.

10) <<

Allows you to switch to the previous page.

- 11) AUX *3, *5, *6(P66) When an external input device is
- connected to this product, the audio from the external input device is played. **12)** Phone *7(P67)
- Allows you to make and receive telephone calls.
- **13)** Setting (*P74*)

Displays the settings screen, on which you can make various settings for this product.

- *1) Equipment by type Requires a satellite tuner connection.
- *2) Can be used with Equipment by type (vehicles with a Bluetooth® 2.0 interface).
- *3) An iPod and external input cable (both available separately) are required.
- *4) Requires a separately-purchased Bluetoothcapable audio device in Equipment by type (vehicles with a Bluetooth® 2.0 interface).
- *5) Equipment by type Even when no external input cable or AUX device (both available separately) is connected to this product, [AUX] is displayed, but touching it does not output any audio.
- *6) Equipment by type Not displayed for vehicles that do not support AUX devices.
- *7) Requires a separately-purchased Bluetoothcapable mobile phone in Equipment by type (vehicles with a Bluetooth® 2.0 interface).

Switch the HOME Screen

The home screen comprises 2 pages. The following explains how to view the other page.

The display changes to the next page (2nd TOP).

2 Touch << .

The display changes to the previous page (TOP).

ADVICE

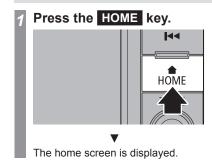

• In some cases, because of Equipment by type and the connection status of devices, the home screen has only one page.

Switch the Sources

A source can be selected on the home screen.

NOTE

 This manual uses the term "source" as the general name for all audio functions, including radio, CD, etc.

7 Touch any "source".

The screen for the selected source is displayed.

ADVICE

- When no audio CD and no disc with audio files (MP3/WMA/AAC) is inserted into this product, [CD] is displayed greyed out and cannot be selected.
- Equipment that is not connected cannot be selected.
- The contents of the menu depend on the model and on what optional equipment is connected.

The following explains audio function operations.

Audio Functions

Basic Operation

NOTE

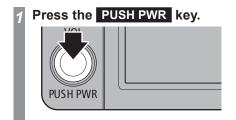

• The album names, titles, etc. in the title information in pictures used with the audio functions and related functions of this manual were prepared for these explanations. They have no relationship whatsoever with actual title information.

Switch Audio ON/OFF

You can switch the audio function ON/OFF.

ADVICE

· Hold down the steering [MODE] key to also turn the audio function ON/OFF.

This switches the audio function OFF.

Press the PUSH PWR key.

The audio function is switched ON and the audio source screen last used is displayed.

Adjust Volume

Adjust the audio function volume.

The volume is lowered.

Turn the VOL key clockwise.

The volume is raised

Insert/Eject Discs

The following explains how to insert a disc into this product.

ACAUTION

- When replacing discs, first ensure that the vehicle is stopped in an area in which stopping is permitted.
- · Do not insert your hand, fingers, or foreign objects into the disc slot. This may lead to injury, smoking, or fire.

Ejecting the Disc

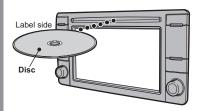

Press the key.

This will eject the disc from the product, so remove the disc.

Inserting the Disc

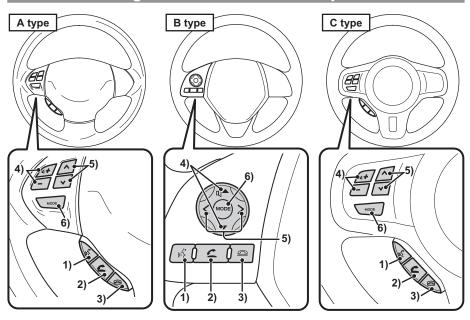

Insert the disc into the disc slot with the label surface up.

Push the disc in a certain amount, and the product will pull the disc in.

Playback starts.

Steering Remote Control Switch Operation

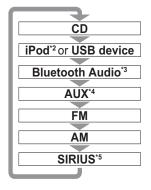

- 1) "SPEECH" key1 Starts voice control.
- 2) "OFF HOOK" kev11 Used to receive a telephone call.
- 3) "ON HOOK" key 1 Used to end a telephone call.

- 4) Vol + , − key / △ , ▼ key Adjust audio functions and the telephone function volume.
- 5) CH 🗸 , 🔨 key / 🤇 , 🗲 key Select CD and other audio source tracks and radio stations Hold down for fast forward and rewind Hold down to switch the satellite radio band during satellite radio reception.

6) MODE key

Hold down to turn the audio function ON/OFF. Additionally, each time this is pressed, this switches the audio source. The order of switching is shown below. If devices are not connected, then these sources are skipped, and the next available source is selected.

- *1) Can be used with Equipment by type (vehicles with a Bluetooth® 2.0 interface).
- *2) An iPod cable (available separately) is required.
- *3) Requires a separately-purchased Bluetoothcapable audio device in Equipment by type (vehicles with a Bluetooth® 2.0 interface).
- *4) Equipment by type Only for vehicles that support AUX
- *5) Equipment by type Requires a satellite tuner connection.

Equipment by type

(Vehicles with a Bluetooth® 2.0 interface)

Voice Control

You can perform telephone and audio operations by voice command.

Press the "SPEECH" key on the steering wheel. After you hear the "beep", say "Voice commands".

→ "Steering Remote Control Switch Operation" (P17)

ADVICE

- · You can also start voice control by touching [Voice] on the home screen.
- · Please refer to your vehicle's user manual (Bluetooth® 2.0 interface) regarding the voice control function.

NOTE

The voice control function may have difficulty in some environments and with the way some people speak. The following will help you make the best use of the voice control function.

- Speak loud and clear. This makes voice recognition easier.
- · When making a call, avoid saving things such as "uh", "um, uh", "aah", etc. These may be mistaken for other words.
- · Close the windows. Noise from the outside can cause recognition mistakes.
- · Ask everyone else in the vehicle to please be quiet while you voice-dial a call. The voices of others in the vehicle can cause recognition mistakes.
- · Words are sometimes mistaken for other words with a similar pronunciation.
- If there is too much ambient noise, recognition mistakes may occur. Example: Driving through a tunnel, driving with chains on the tires
- Strong air flow from the air conditioner or heater may make recognition more difficult.
- In the following cases, voice commands are not accepted.
- Speaking too slow or fast
- Speaking too loud or soft
- Not saying anything or pronunciation is unclear
- Spoke before the "beep"

Handling of Discs

This explains care that should be taken in the handling of discs.

Important Points on Handling

- Fingerprints or other marks on the read surface of the disc may result in its content being more difficult to read. When holding the disc, grip both edges, or one edge and the center hole, to avoid touching the read surface
- Do not affix paper or stickers. or otherwise damage the disc.
- · Do not forcefully insert a disc if a disc is already within the device. This can result in damage to discs, or malfunction.

Cleaning

- · Periodically clean the read surface of the disc. When cleaning, do not wipe in a circular motion. Instead, wipe gently outwards from the center of the disc to the outer edge.
- · New discs may have burring around the outer edge or in the hole in the center. Ensure you check for these. If there are burrs, these may lead to faulty operation, therefore ensure these are removed

Important Points on Storage

- When not using discs, ensure these are kept in cases, and stored out of direct sunlight.
- If discs are not going to be used for a long. period of time, remove these from the product.

Disc Playback Environment

In cold environments such as in mid-winter when the interior of the vehicle is cold, turning the heater on and immediately trying to use the product may cause condensation (water droplets) to form on the disc and internal optical components, and this may prevent the product from operating correctly. In these conditions, remove the disc, and wait a short time before use.

Copyright

Actions such as unauthorized reproduction. broadcast, public performance, or rental of discs that comprise other than personal use are prohibited by law.

Types of Disc That Can Be Played Back

The following marks are printed on the disc label, package, or jacket.

Туре	Size	Maximum playback time	Comments
CD-DA	5 inches (12 cm)	74 minutes	_
CD-TEXT COMPACT CNOTTAL AUDIO TEXT	5 inches (12 cm)	74 minutes	_
CD-R/RW COMPACT COMPACT COMPACT COMPACT COMPACT COMPACT COMPACT COMPACT COMPACT	5 inches (12 cm)	_	Disc containing MP3/WMA/AAC files

Discs That May Not Be Played Back

- Playback of discs other than those described in "Types of Disc That Can Be Played Back" is not quaranteed.
- 3 inches(8 cm) discs may not be used.
- Do not insert irregularly-shaped discs (for example, heart-shaped), as these may result in malfunction

Additionally, discs that have transparent portions may not be played back.

- Discs that have not been finalized cannot be played back.
- Even if recorded using the correct format on a recorder or computer, application software settings and environments; disc peculiarities, damage, or marking; or dirt or condensation on the lens inside the product may render the disc unplayable.
- Depending on the disc, some functions may not be used, or the disc may not play back.
- · Do not use discs with cracks or warps.
- · If the disc has stickers affixed, remains from removed stickers, or affixed adhesive, then do not use the disc.
- Discs that have decorative labels or stickers may not be used.

Nonstandard CDs

This product will play back audio CDs, however please be aware of the following points regarding CD standards.

- Ensure that you use discs with disc on the label surface.
- · Playback of other than standard CDs is not guaranteed. Even if the audio can be played back, the audio quality cannot be guaranteed.
- · When playing back other than standard CDs, the following may occur.
 - There may be noise during playback.
 - There may be skipping in the audio.
 - The disc may not be recognized.
 - The first track may not be played back.
- It may take longer than usual to start the of playback of tracks.
- Playback may start from within the track.
- Some parts may not be played back.
- Tracks may freeze during playback.
- Tracks may be displayed erroneously.

Audio Files (MP3/ WMA/AAC)

This product can play back MP3/WMA/AAC format audio files recorded on CD-ROM, CD-R/RW. and USB devices.

There are limitations on the files and media that can be used, therefore read the following prior to recording MP3/WMA/AAC format audio files on discs or USB devices Additionally, ensure you read the user manuals for your CD-R/RW drive and the writing software, and ensure these are used correctly.

If the MP3/WMA/AAC format audio files includes title information or other data, then this can be displayed.

A CAUTION

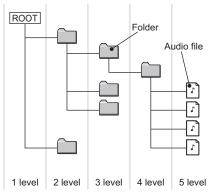

- · Actions such as copying audio CDs or files and either distributing these to others for free or for charge, or uploading files via the Internet or other means to servers is an infringement of the law.
- Do not append the file extensions ".mp3", ".wma", or ".m4a", to other than MP3/ WMA/AAC format files. Playing back discs with these types of files recorded upon them may cause the files to be incorrectly identified for playback, which may lead to loud noise, resulting in speaker damage or accident

ADVICE

- Depending on the condition of the disc recorder or recording software used. correct playback may not be possible. In these cases refer to the user manual for vour product or software.
- · Depending on your computer's operating system, version, software, or settings. files may not have a file extension appended. In these cases, append the file extensions ".mp3", ".wma", or ".m4a" when copying the files.
- Files larger than 2GB in size cannot be played back.
- This product can also play back discs that contain audio files in different formats, MP3, WMA, and AAC.

Folder Structure

Up to 8 folder levels can be recognized. You can create a folder structure as in Genre -Artist - Album - Track (MP3/WMA/AAC format audio files) for management of tracks.

Name	Specification	n Explanation	
Format specifications	ISO9660	Level 1	Maximum 8 character file name, and 3 character file extension. (Single-byte alphanumeric capital letters, numerals, "_" may be used)
	ISO9660 extension	Joliet	Files names up to a maximum 64 characters can be used.
Multisession	Not supported (only first session supported)		
Maximum number of levels	8 levels (if the root is	s the 1st le	vel)
Maximum folder number	Disc: 100 folders; USB device: 300 folders (including root)		
Maximum file number 1	Disc: 255 files; USB device: 3000 files (total number on media. Other than MP3, WMA, and AAC files not included)		
File name and folder name restrictions	der name will not be displayed or played back.		
USB supported formats	The recommended f	ile system	is FAT32. 1 partition only

*1) Do not include other than MP3/WMA/AAC files. However, if storing many tracks within the same folder, these may not be recognized even if less than the maximum number of tracks. In these cases, divide the tracks up into multiple folders.

NOTE

• The order in which folders and audio files are displayed on this product may be different than how they are displayed on a computer.

What Is MP3?

MP3 is an abbreviation of "MPEG-1 Audio Laver 3". MPEG is an abbreviation of "Motion Picture Experts Group", and is a video compression standard used in video CDs, etc. MP3 is one of the audio compression methods contained in the MPEG audio standard, and reduces the quality of sounds that are beyond the auditory resolution of the human ear and that are hidden by louder sounds, thus creating high-quality audio with a lower data size.

Since this can compress CD audio to approximately 1/10 of its original data size without perceptible loss, approximately 10 CDs can be written to a single CD-R/RW disc.

ACAUTION

 MP3 files different to the standards at right may not play back correctly, or file/folder names may not be displayed correctly.

Standards for MP3 Files That Can Be Played Back

Specifications for MP3 files that can be played are shown below.

* For Equipment by type (vehicles with a Bluetooth® 2.0 interface), refer to the vehicle's user manual (Bluetooth® 2.0 interface).

Item		Details

What Is WMA?

WMA is an abbreviation of Windows Media Audio, and is an audio compression format from Microsoft. This is a compression format that has a higher compression ratio than MP3.

* Microsoft, Windows Media, and Windows are registered trademarks of Microsoft Corporation (USA) and in other countries.

A CAUTION

- WMA supports digital rights management (DRM). This product cannot play back WMA files protected using this system.
- · WMA files different to the standards at right may not play back correctly, or file/folder names may not be displayed correctly.
- "Pro", "Lossless", and "Voice" are not supported.

Standards for WMA Files That Can Be Played Back

Specifications for WMA files that can be played are shown below.

* For Equipment by type (vehicles with a Bluetooth® 2.0 interface), refer to the vehicle's user manual (Bluetooth® 2.0 interface).

Radio

Listen to Radio

This explains how to listen to AM and FM radio broadcasts.

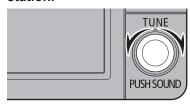

HD Radio [™] broadcast or analog broadcast can be received.

Press the RADIO key.

The radio screen is displayed. When Audio is ON, each time the key is pressed, the radio source changes.

The AM or FM radio broadcast information screen is displayed.

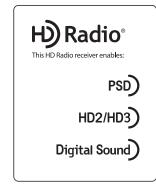

Turn the TUNE key to select a station.

The station at the selected frequency is played.

ADVICE

· By pressing the [HOME] key to display the home screen, then selecting a source from that screen, you can select the radio source.

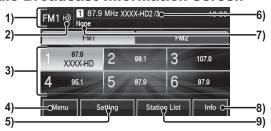

PSD) Program Service Data: Contributes to the superior user experience of HD Radio Technology. Presents song name, artist, station IDs, HD2/HD3 Channel Guide, and other relevant data streams.

Adjacent to traditional main stations are extra local FM channels. These HD2/HD3 HD2/HD3 Channels provide new, original music as well as deep cuts into traditional genre.

Digital, CD-quality sound. HD Radio Technology enables local radio stations Digital Sound to broadcast a clean digital signal. AM sounds like today's FM and FM sounds like a CD

Display Contents

FM Radio Broadcast Information Screen

1) Source plate

Displays the name of the currently selected source, preset channel number, reception frequency, and station name.

2) HD Radio [™] indicator Displayed during digital sound output.

3) Preset switch

Allows you to register your favorite broadcast stations.

Touch and hold the switch for the desired preset channel number until you hear the "beep". This registers the broadcast station currently being received.

→ "Register Your Favorite Broadcast Stations" (P30)

4) Menu

Touching it displays the sub-menu. The [Scan] (P30), [Sound Control] (P74) settings can be made.

5) Setting

You can change the radio reception mode and the display language for PTY filter.

→ "Radio Setting" (P80)

6) SSN

Displays the SSN (Short Station Name) that is currently being received. If there is a sub-channel, "the received channel number/total number of sub-channels" is displayed.

7) PTY

Displays the PTY (Program Type) being received.

8) Info

Switches to information display.

9) Station List

Displays a list of the stations that can be received. → "Search for Broadcast Stations from the Station List" (P31)

10) FM1 , FM2

Allows you to register your favorite 6 stations for each band.

11)Title

Displays the acquired title name.

12)Radio Text

During analog reception, "Title" changes to "Radio Text", and the acquired radio text is displayed.

The "artist" and "album" are not displayed.

13)Artist

Displays the acquired artist name.

14)Album

Displays the acquired album name.

15)Indicator

LIVE : Live event broadcasts are displayed as they are received.

RDS: RBDS data is displayed as it is received.

Continued on the next page

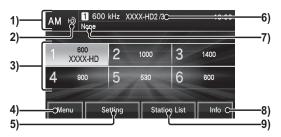

16)Switch page

If the title, artist name, and album title cannot fit in one page, the display can be switched to Page 2 and beyond.

17) Presets

Switches to preset display.

AM Radio Broadcast Information Screen

1) Source plate

Displays the name of the currently selected source, preset channel number, reception frequency, and station name.

2) HD Radio [™] indicator Displayed during digital sound output.

3) Preset switch

Allows you to register your favorite broadcast stations.

Touch and hold the switch for the desired preset channel number until you hear the "beep". This registers the broadcast station currently being received.

→ "Register Your Favorite Broadcast Stations" (P30)

4) Menu

Touching it displays the sub-menu. The [Scan] (P30), [Sound Control] (P74) settings can be made.

5) Setting

You can change the radio reception mode and the display language for PTY filter.

→"Radio Setting" (P80)

6) SSN

Displays the SSN (Short Station Name) that is currently being received.

7) PTY

Displays the PTY (Program Type) being received.

8) Info

Switches to information display. This is not displayed during analog reception.

9) Station List

Displays a list of the stations that can be received. → "Search for Broadcast Stations from the Station List" (P31)

10)Title

Displays the acquired title name.

11)Artist

Displays the acquired artist name.

12)Album

Displays the acquired album name.

13)Indicator

LIVE : Live event broadcasts are displayed as they are received.

14)Switch page

If the title, artist name, and album title cannot fit in one page, the display can be switched to Page 2 and beyond.

15) Presets

Switches to preset display.

Register Your Favorite Broadcast Stations

You can register your favorite 6 stations for each band, FM1, FM2, and AM.

- On the radio broadcast information screen, turn the TUNE key to search for the "broadcast station" to register.
- To register your station, touch and hold the "preset switch" until you hear the "beep".

This registers the selected broadcast station to the chosen preset channel number.

Search for Broadcast **Stations with Strong Signals**

This is handy for searching for broadcast stations you can receive when you drive to a different area

Starting the Seek

A receivable station can be searched one at a time.

On the radio broadcast information screen, press the I≺ SEEK TRACK key or SEEK TRACK ▶►I kev.

When a receivable station is found, it is played.

Starting the Scan

This searches for stations that can be received.

On the radio broadcast information screen, touch Menu .

This displays the sub-menu.

Touch Scan .

▼

When a broadcast station is received, this is played for 10 seconds, then the product searches for the next station.

ADVICE

- Touch [Close] to return to the radio broadcast information screen without stopping the scan.
- · To cancel the scan, touch [Scan] in Step 2 again.

Search for Broadcast Stations from the Station List

You can select a station from the list of receivable broadcast stations

On the radio broadcast information screen, touch Station List .

The station list is displayed.

NOTE

iPod/USB

Use an iPod

By connecting commercially-available iPod/ iPhone devices to this product, you can play back tracks on these through the product.

ACAUTION

- · Never hold an iPod/iPhone in your hand and operate it while driving, as this is dangerous.
- · Do not leave the iPod/iPhone unattended in the vehicle.
- · No indemnification for data loss resulting when the iPod/iPhone is connected to the product will be possible.
- Depending on how devices are handled, audio files can be damaged or lost, therefore it is recommended that data be backed up.

NOTE

- Depending on the generation, model, or software version of the iPod/iPhone. playback on this product may not be possible. $(\rightarrow P7)$ Additionally, playback as explained in this document may not be possible.
- · Please refer to your vehicle's user manual regarding details such as types of iPod/iPhone that can be connected to Equipment by type (vehicles with a Bluetooth 2.0 interface), and types of files that can be played back.

NOTE

- · Updating your software sometimes changes the functions that can be used while connected with this product.
- · Operate the iPod/iPhone while connected to this product.
- · Please refer to your vehicle's user manual regarding how to connect the iPod/iPhone
- · When connecting the iPod/iPhone, use any commercially-available iPod cable.
- · If the iPod/iPhone is connected via Bluetooth as a Bluetooth-capable audio device, do not connect the iPod/iPhone using an iPod cable. Connection using both methods will result in erroneous operation.
- · If an iPod/iPhone does not operate correctly, then remove the iPod/iPhone from the product, reset, then reconnect.
- · Viewing videos is not possible even if the iPod/iPhone supports video playback functions
- · Set up the device in order that no unsafe actions, such as plugging in the connection cable are taken while driving.
- · When inserting and removing the iPod/ iPhone, for safety's sake first stop the vehicle.

NOTE

- Depending on the status of the iPod/ iPhone, it may take some time until the device is recognized, or playback starts.
- Buttons on the product will not operate while iPod/iPhone is connected
- iPod/iPhone specifications and settings may mean that connection is not possible, or result in differences in operation or display.
- Depending on the audio data in the iPod/ iPhone, track information may not be displayed correctly.
- Depending on the status of the vehicle and device, the iPod/iPhone may not play back after starting the engine.
- Data containing copyright information may not play back.
- · It is recommended that the iPod/iPhone equalizer settings be set to flat.

Play iPod

Press the MEDIA key.

The media last played is resumed. When Audio is ON, each time the key is pressed, the media source changes and the media playback screen is displayed.

The iPod playback information screen is displayed.

Press the I≺SEEK TRACK key or SEEK TRACK ▶► key to select the track.

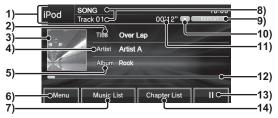

The selected track is played back.

ADVICE

- By pressing the [HOME] key to display the home screen, then selecting a source from that screen, you can select the media source

Displays the chapter list for an audio book. → "Displaying a List of Chapters" (P56)

Music List

Touching [Music List] on the iPod playback information screen will display the iPod menu. Lists of various categories can be displayed from the music list.

Category menu

Category menu	Displays the list of categories. →"Search by List" (P55)
Back	Returns to the playback information screen. →"iPod Playback Information Screen" (P53)
Menu	Displays a submenu, changes the playback mode etc. → "Sub-menu" (P55)

^{*1)} Not displayed for Equipment by type (vehicles with a Bluetooth® 2.0 interface).

Switch Playback Mode

Repeat playback, random playback, etc. are possible.

On the iPod playback information screen. touch Menu .

This displays the sub-menu.

Touch the "mode" to change to.

Touch Close .

Playback in the selected mode starts.

^{*1)} Not displayed for Equipment by type (vehicles with a Bluetooth® 2.0 interface).

^{*2)} Only during audio book playback

Sub-menu

Repeat	Each time this is touched, the mode switches between "REPEAT" and "Cancel". Repeat: Repeat playback of the track currently being played. When repeating is cancelled, the tracks on the current level are repeated.
Random	Each time this is touched, the mode switches in the order "SHUFFLE", "ALBUM SHUFFLE", and "Cancel". Random: Play tracks on the current level in a random order. Album random: Play all the albums on the current level in a random order. However, the order within albums is not changed.
Playback Speed ¹¹	Each time this is touched, the mode switches in the order (Normal), (Fast), (Slow), and (Normal). This is only for audio book tracks.
Sound Control	Adjusts the sound quality. →"Adjust the Sound Quality" (P74)

^{*1)} This menu is not displayed for Equipment by type (vehicles with a Bluetooth [®] 2.0 interface).

ADVICE

 During repeat play, even if shuffle or album shuffle is started, repeat play continues.

Search by List

Touching a category on the Music List (*P54*) displays a list of the categories. By touching the list, you can check album names and track names while searching for the tracks you want.

On the iPod playback information screen, touch Music List .

Displays the music list.

Touch "category".

A list of the selected category is displayed.

Touch the "item" to play from the list.

A list of the selected item is displayed. Repeat Step 3 to search for tracks. When you touch the track to play from the list, playback starts.

- The level of items operated on in Step 3 depends on which category you selected in Step 2.
- The title information recorded into the iPod is displayed on the list.

Displaying the playback information screen

When a list is displayed, the iPod playback information screen for the track currently being played can be displayed.

Displaying a List of Chapters

If there is an audio book recording in the iPod, you can display a list of the chapters in that audio book and play chapter by chapter. The following explains operations from the music playback information screen.

NOTE

- This function cannot be used on an iPod that does not have an audio book playback function.
- · This function cannot be used with a Bluetooth connection.
- During audio book playback, on the music playback information screen, touch Chapter List .

Use USB Device

By connecting commercially-available USB devices such as USB memory to this product, you can play back audio files on these through the product.

ACAUTION

- Never hold an USB device in your hand and operate it while driving, as this is dangerous.
- Do not leave the USB device unattended in the vehicle
- Do not use hard discs, card readers, or memory readers, as damage may occur to these or to the data contained therein. If these are erroneously connected, then turn the engine ignition "OFF", then remove.
- No guarantee is made as regards damage to the USB device, nor regarding loss or damage to data contained therein.
- Depending on how devices are handled, audio files can be damaged or lost, therefore it is recommended that data be backed up.

NOTE

 Please refer to your vehicle's user manual regarding details such as types of USB devices that can be connected and USB input ports.

NOTE

- Please refer to your vehicle's user manual regarding details of types of files that can be played back in Equipment by type (vehicles with a Bluetooth ® 2.0 interface).
- Please refer to your vehicle's user manual regarding how to connect USB devices
- Depending on the type of USB device, usage may not be possible, or functions that can be used may be restricted.
- The recommended file system for USB memory is FAT32.
- The maximum supported capacity for USB memory is 32GB.
- Operate the USB device containing recorded audio files while connected to this product.
- When connecting a USB device, use any commercially-available connection cable.
 Failure to use a connection cable when connecting may place undue load on, or damage the USB connector.
- Set up the device in order that no unsafe actions, such as plugging in the connection cable are taken while driving.
- When inserting and removing the USB device, for safety's sake first stop the vehicle.
- Do not insert non-audio devices into the USB port. Damage to the device or equipment may result.
- Depending on the status of the USB device, it may take some time until the device is recognized, or playback starts.

NOTE

- Depending on USB devices, buttons on the product will not operate while the USB device is connected.
- Data containing copyright information may not play back.
- USB device specifications and settings may mean that connection is not possible, or result in differences in operation or display.
- Depending on audio data in the USB device, track information may not be displayed correctly.
- Depending on the status of the vehicle and device, the iPod/iPhone may not play back after starting the engine.

Listen to Audio Files on a **USB** Device

Press the MEDIA key.

The media last played is resumed. When Audio is ON, each time the key is pressed, the media source changes and the media playback screen is displayed.

The USB device playback information screen is displayed.

- Turn the TUNE key to select the folder.
- Press the I≺SEEK TRACK key or SEEK TRACK ▶► key to select the track.

The selected track is played back.

ADVICE

- · You can fast forward or rewind the track being played by holding down the I≪ SEEK TRACK key or SEEK TRACK ▶▶I key.
- By pressing the [HOME] key to display the home screen, then selecting a source from that screen, you can select the media source

External Input Devices

Equipment by type (Vehicles with a Bluetooth® 2.0 interface)

Use Bluetooth Audio

This product can play back tracks on commercially-available Bluetooth-capable audio devices.

ACAUTION

- · Never hold a Bluetooth-capable audio device in your hand and operate it while driving, as this is dangerous.
- · Do not leave the Bluetooth audio device unattended in the vehicle.
- · Depending on how devices are handled, audio files can be damaged or lost, therefore it is recommended that data be backed up.

NOTE

- · Depending on the type of Bluetoothcapable audio devices, usage may not be possible, or functions that can be used may be restricted.
- · Updating your software sometimes changes the functions that can be used while connected with this product.
- Even when a Bluetooth-capable audio device is connected to this product, the hands-free function (P67) can be used via Bluetooth connection from a separate device

NOTE

- · Confirm together with the user manuals for the commercially-available Bluetoothcapable audio devices.
- · Depending on the type of Bluetoothcapable audio devices, volume levels may differ. There is the danger of loud volumes, so prior to use, it is recommended that you turn the volume down.
- → "Adjust Volume" (P15)
- Depending on the status of the Bluetooth audio device, it may take some time until the device is recognized, or playback starts
- Bluetooth audio device specifications and settings may mean that connection is not possible, or result in differences in operation or display.
- · Depending on audio data in the Bluetooth audio device, track information may not be displayed correctly.
- · Depending on the status of the vehicle and device, the iPod/iPhone may not play back after starting the engine.
- · Data containing copyright information may not play back.
- · It is recommended that the Bluetooth audio device equalizer settings be set to flat.
- · The first time you listen to Bluetooth audio, you must make the connection settings. (P63)

Connect a Bluetooth-capable Audio Device

This product and the Bluetooth-capable audio device uses the Bluetooth function to connect For details on how to connect, refer to "Bluetooth Setting" (P81).

Operation methods below describe situations once a connection has been completed.

NOTE

· If the iPod/iPhone is connected via Bluetooth as a Bluetooth-capable audio device, do not connect the iPod/iPhone using an iPod cable. Connection using both methods will result in erroneous operation.

Listen to a Bluetooth-capable **Audio Device**

Press the MEDIA key.

The media last played is resumed. When Audio is ON, each time the key is pressed, the media source changes and the media playback screen is displayed.

The Bluetooth audio playback information screen is displayed.

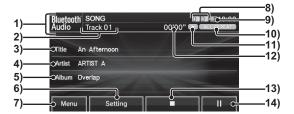

Press the I≺SEEK TRACK key or SEEK TRACK ▶► key to select the track.

ADVICE

- · You can fast forward or rewind the track being played by holding down the I≺ SEEK TRACK key or SEEK TRACK ▶► key.
- By pressing the [HOME] key to display the home screen, then selecting a source from that screen, you can select the media source.

Equipment by type

Use AUX

By connecting external input cables and AUX devices to this product, you can play back tracks on these devices through the product.

A CAUTION

- · Connect an audio device with external sound input mode cancelled, or with the sound turned down.
- Even when no device is connected, the product will switch to AUX, therefore take care with volume levels when no device is connected.
- · Video from AUX devices cannot be viewed.
- · If this is used with the engine stopped, it may run down the battery and make it impossible to start the engine.

NOTE

- Depending on the audio device to be connected, background noise may be emitted.
- For power, use the battery power source included in the audio device. Using the connected audio device while charging through the cigarette lighter socket in the vehicle may lead to background noise being emitted through the speakers.
- · If no audio devices are connected, then do not select the external sound input mode. If external sound input mode is selected while no audio devices are connected, then sound may be emitted through the speakers.
- Please refer to your vehicle's user manual regarding how to connect AUX devices.

Displaying

Press the MEDIA key.

The media last played is resumed. When Audio is ON, each time the key is pressed, the media source changes and the media playback screen is displayed.

This outputs the audio from the AUX device.

NOTE

• The [AUX] touch switch is displayed even if no AUX device is connected to this product.

- Touching Menu then [Sound Control] lets you adjust the sound quality. → "Adjust the Sound Quality" (P74)
- By pressing the [HOME] key to display the home screen, then selecting a source from that screen, you can select the media source

Connect Your Mobile Phone his product and your mobile phone use the

This product and your mobile phone use the Bluetooth function to connect.

For details on how to connect, refer to "Bluetooth Setting" (P81).

Operation methods below describe situations once connection has been completed.

NOTE

This requires a mobile phone that can be connected to the Bluetooth.

Display the Phonebook

There is the vehicle phonebook registered in this product and the mobile phonebook that can receive the data in your mobile phone.

1 Press the PHONE key.

The vehicle phonebook screen is displayed.

INFO/SETTINGS

INFO

Equipment by type
(Vehicles with a Bluetooth® 2.0 interface)

Mobile Phone

Connecting your mobile phone to this product with Bluetooth lets you use the hands-free function.

MARNING

- For safety's sake, do not operate the mobile phone while driving. When operating the mobile phone, first stop the vehicle in a safe location.
- Do not leave your mobile phone unattended in the vehicle. If your mobile phone rolls underfoot when you stop the vehicle or when you go around a curve and it get under the brake pedal, it can interfere with driving and cause an accident.

NOTE

- Cancel functions such as the mobile phone "dial lock", and connect while on the standby screen.
- While connected, mobile phone (receiving calls, etc.) operations may not function correctly.
- Depending on the distance between the product and the mobile phone, the conditions within the vehicle, and types of screening, connection may not be possible. In these cases, situate the mobile phone as close as possible to the product.
- This product allows you to register a total of 7 Bluetooth devices, including Bluetooth-capable mobile phones and audio devices.
- Even though a mobile phone is Bluetooth capable, characteristics and specifications may mean that correct operation may not be possible.
- Even though a mobile phone is Bluetooth capable, phone specifications and settings may result in differences in display, or prevent correct operation.
- Some models may not be confirmed as connected, or may not connect.

NOTE

- · Telephone numbers in the mobile phonebook cannot be registered, edited. or deleted from this product.
- · If the vehicle phonebook screen is being displayed and you want to look at the mobile phonebook, touch [Mobile Phonebookl.
- If the mobile phonebook screen is being displayed and you want to look at the vehicle phonebook, touch [Vehicle Phonebookl.

ADVICE

- . The first letter of the name can be changed by touching the
 or .
- If you touch the first letter of the name, a list is displayed with the selected letter first on the list.

Register in Phonebook

Telephone numbers can be registered.

Registering from Mobile Phone

You can load the phonebook in your mobile phone into the vehicle phonebook.

∴ WARNING

• Stop your vehicle in a safe location before starting vehicle phonebook registration.

NOTE

- The only data transferred is telephone numbers and names.
- Up to 32 entries can be registered in the vehicle phonebook.
- Up to 1000 entries can be registered in the mobile phonebook.
- Even with a mobile phone that supports this function, with some models and settings, it is not possible to transfer all or some of the data.
- It may take a few minutes for the transfer to complete.
- · Telephone numbers in the mobile phonebook cannot be registered, edited, or erased from this product.
- · For details on how to operate your mobile phone, please refer to the user manual for your mobile phone.

Reading in one Entry

Display the vehicle phonebook screen.

→ "Display the Phonebook" (P67)

Touch Import .

Touch Yes .

Do this while the message "Import one phonebook entry?" is displayed.

Select a telephone number.

It is necessary to operate your mobile phone to select the telephone numbers to be transferred

For details, refer to the user manual for your mobile phone.

When the loading from the mobile phonebook is complete, the message "Import successful." is displayed.

- · Your mobile phone must support OPP (Object Push Profiles).
- · The only data transferred is home, work. and mobile phone numbers.

Reading in All Entries

Display the mobile phonebook screen.

→ "Display the Phonebook" (P67)

- Touch Import .
- Touch Yes . Do this while the message "Import entire phonebook from this phone?" is displayed.

When the loading from the mobile phonebook is complete, the message "Import successful." is displayed.

ADVICE

- If there is already a vehicle phonebook registered in this product, the phonebook registration overwrites it.
- The only data transferred is home, work, and mobile phone numbers.
- Up to 32 entries can be registered in the vehicle phonebook.
- Your mobile phone must support PBAP (Phone Book Access Profiles).

Edit a Phonebook

You can edit a phonebook that has been reaistered.

MARNING

- · Stop your vehicle in a safe location before editing vehicle phonebook.
- Display the vehicle phonebook screen.
 - → "Display the Phonebook" (P67)
- Select and touch the "phonebook" to edit.

- Touch Edit .
- Touch the "category" to edit.

Enter the telephone number, then touch | Enter |.

- · Touching [Back] discards the contents of editing.
- · On the edit screen, if you touch [Voice Tag], you can edit the voice tag.

Deleting a Phonebook

You can delete a phonebook that has been registered.

MARNING

 Stop your vehicle in a safe location before deleting vehicle phonebook.

Deleting Only One Entry

- Display the vehicle phonebook screen.
 - → "Display the Phonebook" (P67)
- 2 Select and touch the "phonebook" to delete.

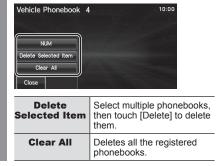

- 3 Touch Delete .
- 4 Touch Yes

The phonebook deletion is complete.

Deleting Multiple Phonebooks

- 1 Display the vehicle phonebook screen.
 - → "Display the Phonebook" (P67)
- 2 Touch ▲.
- 3 Touch any of the "deletion methods".

4 Touch Yes

The phonebook deletion is complete.

Dial a Telephone

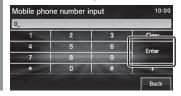

There are a number of ways to make a call.

A CAUTION

- As much as possible, refrain from phone calls while driving. First stop your vehicle in a safe location.
- Some mobile phones restrict calls to the same number to no more than 3 times in 3 minutes.

Calling by Entering a Telephone Number

- 7 Display the vehicle phonebook screen or the mobile phonebook screen.
 - → "Display the Phonebook" (P67)
- 2 Touch , and then Num.
- On the mobile phone screen, enter the telephone number.

ADVICE

• If you make a mistake, touch [Clear] to clear one digit.

A call is started to the telephone number you entered.

Calling the Person You Were Just Talking with

On the mobile phone screen, touch Redial.

A call is started to the telephone number you were just talking with.

Making a Call from a Phonebook

- Display the vehicle phonebook screen or the mobile phonebook screen.
 - → "Display the Phonebook" (P67)
- 2 Select and touch the "person to call".

Touch the "telephone number to call".

4 Touch Yes

A call is started to the telephone number you selected.

Incoming Calls

The audio guide sounds and the incoming call screen is displayed.

- Touching [Mute] switches off the function for the mic connected to this product.
 Touching [Mute Off] switches ON the mic function.
- Touching [Transfer Call] switches the speaker and mic functions to the mobile phone side. Touching [Cancel transfer] switches the speaker and mic functions to this product.
- The call volume is switched to the volume from the last call. The volume during this call will be the volume for the next call.

Answering an Incoming Call

Press the "OFF HOOK" key on the steering wheel.

→ "Steering Remote Control Switch Operation" (P17)

You can now talk with the calling party.

ADVICE

 You can also talk with the calling party by touching [Call].

Ending a Telephone Call

Press the "ON HOOK" key on the steering wheel.

→ "Steering Remote Control Switch Operation" (P17)

This ends the incoming call.

ADVICE

• You can also end a call by touching [End].

Setting Passcode

You can lock the telephone function with a passcode to prevent any third party from using the telephone function without your approval.

- On the mobile phone screen, touch **A** then Lock .
- Enter a four-digit "passcode", then touch Enter .

The passcode setting is complete.

ACAUTION

· Do not forget this passcode. You will need to enter it the next time you use the telephone function.

ADVICE

- This takes effect after the next startup.
- After turning the ignition switch to LOCK/ OFF, wait at least 30 seconds, then turn the ignition switch to ACC or ON. If you turn the ignition switch to ACC or ON too quickly, the new setting may not be set properly.
- If you have set a passcode, after turning the ignition switch ON, check that the passcode is set correctly.
- · If you forget your passcode, consult an authorized Mitsubishi Motors dealer.

Unlocking the Lock

Use the passcode to unlock the lock. The next time you use the telephone function, it is no longer necessary to enter a passcode.

- Press the **PHONE** key.
- Enter the set a "passcode". then touch | Enter |.

and then Unlock . Touch A

The unlocking of the passcode lock is complete.

Other Info

Camera

When a rear view camera, available separately, is connected, the picture from this rear view camera can be displayed on the display.

For details, refer to the user manual for the vehicle.

Move the gear shift position to "R".

Displays the picture from the rear view camera.

Version Info

Serial Number

You can check the serial number.

1 Press the HOME key, and touch Setting then Version Info.

Displays the Version Info screen.

Equipment by type

(Vehicles with a Bluetooth® 2.0 interface)

Gracenote Version

Allows you to check the Gracenote version.

On the USB device playback information screen or on the list display, touch Menu.

This displays the sub-menu.

2 Touch Database .

Displays the Gracenote Database version screen.

SETTINGS

Adjust the Sound Quality

Change audio quality settings.

NOTE

- · You cannot adjust the sound quality when the audio is OFF.
- Press the **HOME** key. The home screen is displayed.
- Touch Setting .
- Touch Sound Control .

Displays the sound quality setting screen.

ADVICE

· You can also display the sound quality setting screen by pressing the [PUSH SOUND] key.

Press the [PUSH SOUND] key again to return to the original screen.

Contrast	Adjusts the contrast. Touching [+] increases the contrast, touching [-] decreases it. You may continue touching the adjustment until the setting is acceptable.	
Black Level	Adjusts the black level. Touching [+] increases the black level, touching [-] decreases it. You may continue touching the adjustment until the setting is acceptable.	

Clock Screen

Displays the clock over the entire screen.

1 Press the HOME key.
The home screen is displayed.

Touch Setting, and then Clock Screen.

The clock is displayed.

ADVICE

- Touching the screen returns the display to the original screen.
- With [System Setting], [Time Setting], and [Time Display Settings], you can change the format for time display.
- → "Time Setting" (P77)

Radio Setting

You can change the radio reception mode and the display language for PTY filter. You can set this for both FM and AM.

- Press the **HOME** key. The home screen is displayed.
- Touch Setting, and then Radio Setting .
- Set individual items.

ADVICE

· You can also set the radio settings by touching the [Setting] in the radio broadcast information screen (P27).

Settings name	Settings value	Settings content	
PTY Language	English	You can change the display language for PTY filter.	
	Francais		
	Espanol		
HD Radio Receive	On	Set whether or not to receive digital radio.	
	Off		
HD Radio Setting	Auto	Receive mode can be set when the HD Radio Receive	
	Digital	settings are "On". If "Auto" is set, digital reception is used. If digital reception	
	Analog	is no longer possible, it will automatically switch to analog reception.	

Equipment by type

(Vehicles with a Bluetooth® 2.0 interface)

Bluetooth Setting

You can use the Bluetooth function to connect any commercially-available Bluetooth device to this product.

What Bluetooth is

Bluetooth is a wireless communications standard specialized for connecting devices over short distances (a few meters or less). Since it uses radio waves, it is not directional. Thanks to its characteristic, communications are possible even if there is an obstruction. This makes it possible to communicate, even with the mobile phone still in your shirt pocket or briefcase or shoulder bag.

NOTE

• This product supports Ver. 2.0 + EDR.

Supported profiles

Bluetooth AUDIO	A2DP (v1.0) AVRCP (v1.3)
Hands-free	HFP (v1.5)
Phonebook transfer	OPP (v1.1) PBAP (v1.0)

NOTE

- Cancel functions such as the mobile phone "dial lock", and connect while on the standby screen.
- While connected, operations on the Bluetooth device (receiving calls, etc.) may not function correctly.
- For details on how to enter the passkey for your Bluetooth device, refer to its user manual.
- The connection fails sometimes. Register again.
- Depending on the distance between this product and your Bluetooth device, the conditions within the vehicle, and types of screening, connection may not be possible. In this case, put your Bluetooth as close as possible to this product.
- Even though a device is Bluetoothcapable, its characteristics and specifications may mean that correct operation is not possible.
- Some Bluetooth devices cannot be connected.
- Depending on the Bluetooth device, connecting may take some time.
- Up to 7 Bluetooth devices can be registered.

fig. 7 devices are already registered, you must delete one before you can register a new Bluetooth device.

Registering a Bluetooth Device

Register a Bluetooth device with this product.

- 7 Press the HOME key.
 The home screen is displayed.
- Touch Setting , and then
- Bluetooth Setting .
- 3 Touch Pair Device
- 4 Enter the pass key displayed on the screen into the Bluetooth device.

When the connection is complete, a screen is displayed for selecting the Bluetooth device. For details, refer to the user manual for the Bluetooth device.

ADVICE

- When the telephone is not registered, press the [PHONE] key to display the pairing screen.
- After pairing, the phonebook can be imported.
- If the pass key is incorrect, redo the Bluetooth device side operations from the start
- Some Bluetooth devices require a special passcode.
- Depending on the Bluetooth device settings, it may be necessary to enter the passcode each time the device is connected.
- Carry out the procedure for entering the passcode to the Bluetooth device according to its user manual.

Selecting a Bluetooth Device

If you have registered multiple Bluetooth devices, you must select the one to connect. (From then on, the Bluetooth device you set with this function is connected automatically when it is detected by this product.)

- 1 Press the HOME key.
 The home screen is displayed.
- 2 Touch Setting, and then Bluetooth Setting.
- 3 Touch Select Device to Connect .
- 4 Touch the "device name" to connect.

Touch Connect Telephone or Connect Audio .

For hands-free operation of the Bluetooth device to connect, select [Connect Telephone], to use for Bluetooth audio, select [Connect Audio].

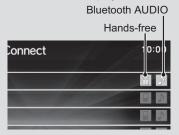

6 Touch Enter, and then Yes.

This completes selection of the Bluetooth device.

ADVICE

 If the Bluetooth device is capable of both hands-free and Bluetooth audio operation, you can make the selection for one device.

In this case, the display is as follows.

Setting a Passkey

Set the passkey (factory setting "1212").

- 1 Press the HOME key.
- The home screen is displayed.
- 2 Touch Setting, and then Bluetooth Setting.
- 3 Touch Set Passkey.
- 4 Enter any four-digit passkey, then touch Enter.

The passkey setting is complete.
