THE SPORT TRUCK L200

Left: 4WD GLS Double Cab with optional equipment / Earth Green Metallic [F27]
Right: 4WD GLS Double Cab with optional equipment / Sterling Silver Metallic [U25]

A Stylish Show of Strength. MITSUBISHI L200

Feel the power. Feel the handling.
Feel a new level of comfort in an entirely new class of vehicle.
The all new MITSUBISHI L200, it's all truck and all car and it changes the way you think about getting from one place to another.

LED daytime running light

Outstanding aerodynamic performance

The new L200 is streamlined based on advanced computer simulation to slip through the wind with a class-leading 0.42* Cd that lowers noise and raises fuel efficiency while enhancing both acceleration and handling stability.

* According to internal test results.

4WD GLS Double Cab shown with optional equipment / Leather interior

4WD GLS Double Cab shown with optional equipment / Leather interior

Wide Open Spaces

Travel comfortably in the L200 Double Cab, which offers class-leading space and leg-stretching relaxation. Enhanced high-quality seating, including newly designed front seats, raises driving pleasure for all occupants. Strategically placed sound insulation and vibration damping material further contribute to a quiet, comfortable ride. Everything you need, including convenient storage features, is here to support a pleasurable journey.

Class-leading cabin length

Luxurious new front seats

Quieter, more relaxing ride

- 1 Instrument panel sound absorbing material
- 2 Floor damping material
- 3 Dashboard and fender noise insulation
- 4 Backbone sound absorbing material

* Equipment may vary by models.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

Dynamic Power

Power is supplied in abundance whenever you need it, from your choice of one gasoline and three diesel engines, including a 2.5-liter powerhouse that generates an impressive 131kW/4000rpm. Whatever the driving conditions, the L200 has what it takes to accomplish your mission.

Power-boosting features give L200 DI-D engines incredible performance

2.5-liter 16-valve Intercooled Turbocharged DOHC Common Rail DI-D High Power

Three turbocharged diesel engines, including two with intercoolers, deliver the spirited response you need for serious work and play. Their common rail direct injection system optimizes fuel dispersion for peak efficiency, low emissions and power on demand.

400 N·m

DOHC 16-valve layout

Dual overhead camshafts and 16 cylinder valves deliver extremely high performance by optimizing fuel intake, combustion and exhaust. Precisely balanced roller rocker arms and scissor gears also fine-tune valve timing to achieve more complete combustion.

Turbocharger

A turbocharger forces more air into the combustion chambers to significantly boost power. An intercooler optimally cools the air to further improve combustion efficiency.

2.5-liter Turbocharged DOHC DI-D (81kW/4000rpm)

2.5-liter Intercooled Turbocharged DOHC DI-D Standard (100kW/4000rpm)

2.5-liter Intercooled Turbocharged DOHC DI-D High power (131kW/4000rpm)

Paddle shifters

Sporty paddle shifters let you shift gears with a press — without removing your hand from the steering wheel.

5-speed automatic transmission with Sports Mode

To enjoy driving ease without sacrificing sportiness, choose the smooth-shifting 5-speed automatic transmission. Its Sports Mode lets you shift up or down with a flick of the lever for sporty, manual-like driving pleasure.

5-speed manual transmission

For a feeling of total control that many enthusiasts demand, choose the 5-speed manual transmission. Its solid stick shift provides smooth, sure operation so you can confidently and intuitively coax out maximum performance.

4WD GLS Double Cab with optional equipment / Sterling Silver Metallic [U25]

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

All-terrain confidence

Because challenges come in all shapes and sizes, the L200 is designed to climb up, over, around and through the toughest terrain.

Drivability is improved, both on and off the road. Forward visibility has also been improved through refinements to the hood and wipers. Indicated angles are valid when 265/70R16 tires are mounted. When the optional rear bumper and side steps are included, the ramp breakover angle is 25° and the departure angle is 22° (stylish-type rear bumper) or 23° (chrome-type rear bumper).

Robust Handling

The L200 is built for maximum stability and traction. Its rugged frame contributes to solid handling and its body is aerodynamically contoured for stable highway performance. Reliable 4WD traction combines with an advanced suspension to keep you in touch with surface conditions so you stay in firm control.

SUPER SELECT 4WD-II

Using the drive mode selector dial, you can switch between 2WD (2H), and 4WD (4H, 4HLc) with shift-on-the-fly convenience at up to 100km/h. When the going gets rough, lock the center differential by entering the 4HLc setting for rugged terrain or the 4LLc setting for inclines, mud and snow.

Note: The vehicle must be stopped while switching between 4HLc and 4LLc.

2H

For normal road conditions

4H

For rough roads and hazardous conditions

4HLc

For rugged terrain with low-grip surfaces

4LLc

For steep hills, mud, sand, deep snow, etc.

EASY SELECT 4WD

Switch from smooth 2WD (2H) highway performance to rugged 4WD (4H) traction while driving at up to 100km/h. Transfer torque to all four wheels with a flick of the drive mode selector dial in the 4H mode or by entering the 4L mode, which provides lower gear ratios and higher torque for slower speed driving in rough terrain.

Without LSD

With LSD

Hybrid LSD

The hybrid-type Limited Slip Differential combines torque-sensing helical gears with speed-sensing viscous coupling to maintain excellent traction on slippery and rugged surfaces. An internal clutch escape mechanism also prevents loss of torque if a wheel starts spinning. Hybrid LSD works with ABS to enhance driving safety.

Class-leading 5.7m turning radius

The turning radius is surprisingly small for a vehicle of this size, making the L200 especially easy to park and maneuver.

* 2WD: 5.7 meters, 4WD: 5.9 meters

Quick, responsive handling

Steering is sporty and responsive, requiring less effort to turn.

Tough for work. Stylish for pleasure.

The muscular L200 is built tough to handle whatever work challenges come your way. Its ample storage capacity and durability are matched by handsome styling and spacious comfort that your traveling companions will appreciate. Streamlined styling also contributes to class-leading aerodynamics and a smooth, quiet ride.

4WD GL Single Cab with optional equipment / Titanium Gray Metallic [U17]

Room to spare

The stylish L200 never forgets its true calling. When you're hard at work, it provides all the space and tough reliability you need. The spacious cargo bed is also solidly reinforced to offer outstanding durability.

Double Cab

Single Cab

Double wishbone suspension

The rugged suspension features double wishbones with coil springs and a stabilizer bar in front, plus no-nonsense above-the-axle leaf springs in the rear for outstanding traction. The ride is stable and comfortable for all occupants.

Durable design

In front, a more rigid engine compartment and double striker in the hood safety mechanism contribute to enhanced durability and safety. In the cargo bed, the rear corners are specially reinforced to disperse the force of impact when cargo shifts and prevent damage such as cracks in the side panels.

Robust construction

More rigid engine compartment

Reinforced rear corners

Hood safety mechanism with double striker

Cargo bed inner hook x 6

Multipurpose cargo bed outer hooks

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

Convenience

Audio System with 6.1-inch Full-color Display
The L200 now features a display with 6.1-inch full-color touch screen. In addition to giving you full control over a wide range of audio options, the display also links to the rearview camera.

- 1 Easy-to-select menu**
The intuitive interface makes selecting functions safe and easy.
- 2 Rearview camera**
Safely navigate into even tight parking spaces.
- 3 USB connectivity**
Select music directly from your portable player.
- 4 Hands-free Bluetooth® telephone**
Incoming calls are displayed for easy viewing.

Tilt & telescopic steering

Multi-information display

Dual-zone automatic air conditioner

Keyless Operation System

Engine switch

Keyless operation system
While carrying the key, you can press a button on the outside of either front door to lock or unlock all the doors, or press the engine switch in the cockpit to start the engine.

ETACS (Electronic Time and Alarm Control System)

Power window timer
Even after shutting off the engine, the power windows can be opened or closed for 30 seconds before opening the door.

Headlamp auto off function
After switching off the ignition and stepping out of the car, the headlamps automatically turn off to help conserve battery power.

Auto door relock system
Within 30 seconds of pressing the unlock button from outside the car, this system will automatically relock all the doors if none have been opened.

Auto speed adjustable wipers
In the Timing mode, the window wipers operate faster at higher vehicle speeds.

Safety

RISE body
Collision safety performance is significantly enhanced by Mitsubishi's RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

Rigid lightweight body

The body is extremely sturdy and lightweight, thanks to the generous use of high tensile strength steel plates that also contribute to a high level of collision safety.

7 SRS airbags
In the event of a collision, seven SRS airbags help protect you and your passengers by absorbing the force of impact. The system includes front airbags, front side airbags, curtain airbags and a driver's knee airbag. (Optional on GLS)

Double pretensioner (Driver's seat)

Pretensioners
Pretensioners on the front seatbelts automatically tighten the belts in the event of a frontal collision to help restrain the driver and front passenger and reduce the force of impact when the front airbags are deployed. (Single pretensioner optional for driver and front passenger. Double pretensioner optional for driver on GLS)

Immobilizer
The engine can only be started when a dedicated key with matching authentication code is used. This advanced security system effectively prevents vehicle theft.

ABS with EBD
The L200's ABS gives you the ability to suddenly maneuver safely around obstacles as you slow down. EBD (Electronic Brake-force Distribution) assists by applying additional force to the rear brakes as needed, enabling quicker stops even when carrying passengers and heavy loads.

Power windows
The driver's side window can be raised or lowered with a single touch and features an anti-trap mechanism for safety.

Double Cab GLS (4WD)

Available engines: 2.5-liter intercooled turbocharged DI-D High Power,
2.5-liter intercooled turbocharged DI-D Standard

Sportero

Double Cab GL (2WD/4WD)
